

A Cargill Foods Company

To Whom It May Concern:

As an occupational health nurse working in close contact with Dr Rob Debease, at Excel Corp. I would like to take a moment to comment on the tremendous asset he has been to our company.

His dedication to his career is a great asset for any facility. Dr. Rob is very attentive to even the smallest of details in every Policy and Procedure he carries out. He is dependable and responsible in the performance of his care. While constantly displaying a positive attitude with the desire to accomplish treatment in the most efficient and professional manner, he possesses a pleasant personality and works well with all levels of the organization.

Dr. Rob is a great motivational speaker, keeping audience focused on any health lecture he gives. His wife Pam Debease is a wonderful organizer of health fairs they give with great success.

Based on the above, in conjunction with my direct business interfacing with him, I would recommend Dr. Rob and would view the association as a positive step toward acquiring a valuable and well motivated professional team player.

Sincerely,

Karen Gallagher OHN  
Occupational Health Nurse
