Dear Dr. DeBease,

Thank you for the free Safety and Health Workshop you recently provided to our employees. The content was timely and helpful, and was directly related to concepts I have been trying to get across to the general workforce. Your positive attitude and passion for the subject made the presentation very enjoyable, not to mention the fact that it was highly informative.

Please keep me informed on any other workshops you may be offering in the future – I would be very interested in hosting you again. I would also recommend you to any other company looking for a great class.

Thanks again!
